Homeowner's Insurance Coverage to Meet Your Needs.

Fidelity's homeowner's insurance policy provides you with the peace of mind of knowing that one of your most valuable assets is protected in the event of a covered loss.

Life Can Dish Out Large and Small Disasters

Simply put, insurance provides a safety net for you and your family when certain unfortunate events happen like theft, fire or burglary.

Home Replacement

Fidelity's policy offers the cost of rebuilding or repairing your home after a covered loss up to the limits purchased.

Broad Home Contents Protection

Many insurance policies for personal property are based on an actual cash value. This means that in the event of a loss to your household goods, depreciation will be taken. However, we also have policies that provide replacement cost coverage for your personal possessions. This means if you select the replacement cost optional coverage, no depreciation will be taken on your personal property in the event of a covered loss. Basically, you can receive a replacement of equal value for your damaged item when it is replaced after a loss (less your deductible).
